AFTER CARE TIPS

Aftercare for Eyelash Extensions is important to ensure that they last as long as possible and maintain their beautiful appearance

Here are some tips for proper aftercare:

1. Avoid getting your eyelash extensions wet for the first 24-48 hours after application. This includes avoiding swimming, hot tubs, saunas, and showers.
2. Do not use oil-based products near your eyes, as these can cause the lash adhesive to break down. This includes makeup remover, moisturizers, and cleansers.
3. Be gentle when cleaning your eyelash extensions. Use a lash cleanser and a soft-bristled brush to gently remove any buildup or debris from your lashes.
4. Do not rub your eyes or tug on your eyelash extensions, as this can cause damage to both your natural lashes and the extensions.
5. Avoid sleeping on your stomach or with your face pressed into a pillow, as this can cause your lashes to become tangled or fall out.
6. Be careful when applying makeup around your eyes. Use a gentle touch and avoid pulling on your eyelash extensions.
7. Visit your lash technician for touch-ups every 2-3 weeks to maintain the fullness of your lashes.

By following these simple tips, you can help extend the life of your eyelash extensions and keep them looking beautiful for weeks to come.

NAIL EXTENSIONS

AFTER CARE TIPS

Aftercare For Nail Extensions is Crucial To Maintaining Healthy And Strong Nails

Here are some tips for proper aftercare:

1. Avoid water exposure for at least 24 hours after getting nail extensions. This will allow the adhesive to fully cure and prevent the nails from lifting.
2. Wear gloves when doing household chores or other activities that may expose your nails to chemicals or rough surfaces.
3. Keep your nails moisturised by applying cuticle oil or lotion regularly. This will help prevent the nails from becoming brittle and breaking.
4. Avoid picking or biting at your nails, as this can cause damage to the extensions and weaken the natural nail.
5. Be gentle when using your nails, and avoid using them as tools to open packages or other objects.
6. Schedule regular maintenance appointments with your nail technician to ensure that the extensions are properly maintained and any damage or lifting is addressed promptly.

By following these simple tips, you can keep your nail extensions looking beautiful and healthy for weeks to come
